## Safety Data Sheet according to P.U.(A) 310/2013

Printing date 12.04.2025

Version number 46

Revision: 12.04.2025

Product identifier	
Trade name Recommended use of the chemical and restrictions on	MC-Ballastbond 70 - Komponente A
use	No further relevant information available.
Application of the substance	
/ the mixture	Injektion Polyurethane resin
Details of the supplier of the	-
Manufacturer/Supplier:	MC-Bauchemie Müller GmbH & Co. KG
	Am Kruppwald 1-8
	D-46238 Bottrop
	Tel.: +49(0)2041-101-0
	Fax.: +49(0)2041-101-400
	E-Mail: info@mc-bauchemie.de
	MC-Bauchemie AG
	Hagackerstr. 10
	CH-8953 Dietikon
	Tel.: +44-7400510
	Fax : +44-7400533
Informing department:	msds@mc-bauchemie.de
Hazard identification	
Classification of the	
substance or mixture	The product is not classified, according to the Globally Harmoni System (GHS).
Label elements	
GHS label elements	Void
Hazard pictograms	Void
Signal word	Void
Hazard-determining	
components of labelling:	Polypropylene glycol
Hazard statements Other hazards	Void
Results of PBT and vPvB as	sessment
PBT:	Not applicable.
vPvB:	Not applicable.

## 3 Composition and information of the ingredients of the hazardous chemical

· Chemical characterisation: Mixtures

- Description: Mixture of the substances listed below with harmless additions.
- · Dangerous components:
- CAS: 25322-69-4 Polypropylene glycol

Acute Tox. 4, H302 30-60%

Page 2/8

# Safety Data Sheet according to P.U.(A) 310/2013

Printing date 12.04.2025

Version number 46

Revision: 12.04.2025

#### Trade name MC-Ballastbond 70 - Komponente A

· Additional information

(Contd. of page 1) For the wording of the listed hazard phrases refer to section 16.

#### 4 First-aid measures

<ul> <li>Description of first aid measu</li> <li>General information</li> </ul>	Remove, decontaminate and dispose of soiled, soaked clothing
	and shoes immediately.
· After inhalation	Remove person to fresh air, keep warm, allow to rest; if breathing is difficult, seek medical attention.
After skin contact	In case of contact with skin, preferably wash with polyethylene glycol-based cleaner or clean with plenty of warm water and soap. Consult a doctor in case of skin reactions.
After eye contact	Rinse the eyes with open eyelids for a sufficiently long time (at least 10 minutes) with water that is as lukewarm as possible. Consult an ophthalmologist.
After swallowing	Do NOT induce vomiting. Rinse mouth with water. Medical attention required.
Information for doctor	
Most important symptoms and effects, both acute and	
•	Information for the dector: The product irritates the respiratory treat
delayed	Information for the doctor: The product irritates the respiratory tract and is a potential trigger for skin and respiratory sensitisation. Treatment of acute irritation or bronchial constriction is primarily symptomatic. Depending on the extent of exposure and the symptoms, prolonged medical treatment may be necessary.
<ul> <li>Indication of any immediate medical attention and special</li> </ul>	
treatment needed	No information available.

#### 5 Fire-fighting measures

· Extinguishing media

· Suitable extinguishing agents Use fire fighting measures that suit the environment.

Special hazards arising from

- the substance or mixture No further relevant information available.
- · Advice for firefighters
- Protective equipment:

No special measures required.

### 6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures
 Environmental precautions:

Not required.

- : Prevent material from reaching sewage system, holes and cellars.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

(Contd. on page 3)

## Safety Data Sheet according to P.U.(A) 310/2013

Printing date 12.04.2025

Version number 46

Revision: 12.04.2025

Trade name MC-Ballastbond 70 - Komponente A

Contd. of page 2) • **Reference to other sections** See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.

#### 7 Handling and storage

· Handling

The personal protective measures described in section 8 must be observed. The protective measures required when handling isocyanates must be observed. Avoid contact with skin and eyes and inhalation of vapours. Keep away from food and beverages. Wash hands before breaks and at the end of work and apply skin protection ointment. Store work clothes separately. Remove soiled, soaked clothing immediately.
Keep container dry and tightly closed. Further information on the storage conditions that must be observed for quality assurance
reasons can be found in our technical data sheet.
Store only in the original container
Store only in the original container.
None.
10
No further relevant information available.

## 8 Exposure controls and personal protection

• Additional information about design of technical systems: No further data; see section 7.

Control parameters

Components with critical

values that require

*monitoring at the workplace:* The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. (Contd. on page 4)

# Safety Data Sheet according to P.U.(A) 310/2013

Printing date 12.04.2025

Version number 46

Revision: 12.04.2025

Trade name MC-Ballastbond 70 - Komponente A

· Additional information:	(Contd. of page 3) The lists that were valid during the compilation were used as basis.
<ul> <li>Exposure controls</li> <li>Personal protective equipm</li> </ul>	ent
General protective and	
hygienic measures	Keep away from food, drink and animal feed.
nygieme measures	Remove soiled, soaked clothing immediately.
	Wash hands before breaks and at the end of work.
	Avoid contact with eyes and skin.
· Breathing equipment:	Respiratory protection required at insufficiently ventilated
	workplaces and when working with splashes. Fresh air masks or
	combination filters A2-P2 (EN529) are recommended for short-
	term work.
	If applicable, further recommendations for respiratory protection
	can be found in the appendix.
	In case of hypersensitivity of the respiratory tract (asthma, chronic
	bronchitis), handling of the product is not recommended.
Drataction of bandos	
<ul> <li>Protection of hands:</li> </ul>	Suitable materials for protective gloves; EN 374:
	Butyl rubber, nitrile rubber, chloroprene rubber (neoprene).
	Note: suitable materials that provide sufficient protection for
	industrial cleaning with aprotic polar solvents (according to IUPAC
	definition): butyl rubber.
	In case of prolonged or frequently repeated contact, a glove with a
	protection class of 5 or higher is recommended (breakthrough time
	greater than 240 minutes according to EN374). For short-term
	contact, a glove with a protection class of 3 or higher is
	recommended (breakthrough time greater than 60 minutes
	according to EN374).
	The thickness of the material is not the only criterion for the level of
	protection of a glove against a chemical substance. The protective
	effect also depends to a large extent on the type of glove material.
	Depending on the type and material, the thickness must be more
	than 0.35 mm to ensure adequate protection in the event of
	prolonged and frequent contact. Exceptions to this rule are multi-
	layer gloves, which guarantee sufficient protection even with a
	thickness of less than 0.35 mm during prolonged wear. Other glove
	materials with a thickness of less than 0.35 mm only provide
	sufficient protection for short periods of wear.
	For solvent-free products:
	Example:
	Polychloroprene - CR: thickness $\geq 0.5$ mm; breakthrough time
	>480min.
	Nitrile rubber - NBR: thickness ≥0.35mm; breakthrough time
	≥480min.
	Butyl rubber - IIR: thickness ≥0.5mm; breakthrough time ≥480min.
	Fluoro rubber - FKM: thickness ≥0.4mm; breakthrough time
	<i>≥</i> 480min.
	Recommendation: Dispose of contaminated gloves.
<ul> <li>Material of gloves</li> </ul>	Polychloroprene - CR
5	Nitrile rubber - NBR
	Butyl rubber - IIR
	(Contd. on page 5)
	(conta. on page o)
